HPRO's member Colleges individually focus on the public interest, working to provide the people of Ontario with safe, competent, and ethical health care and holding healthcare professionals accountable for their conduct and practice. Colleges also have a duty to provide information to the public, and, to that end, a public-facing website is a resource provided by HPRO that shares helpful links to all regulatory Colleges' websites. The site offers simply stated facts about healthcare providers and regulation with information available on the site in the 10 most used languages in the province.
